## **Local Rockton Resident Wins McKay Nursery Color It Green Sweepstakes**

McKay Nursery Company recently announced long time Rockton resident, Katy Kreitzmann as the first winner of their *Color It Green Sweepstakes - Extreme Landscape Makeover*.

Kreitzmann moved into her 124-year-old home this past July. She began by decorating the house but became challenged with the thought of landscaping. That's when her Mom urged her to enter McKay Nursery's Color It Green Sweepstakes. "I had a vision of lots of flowers and color but didn't know where to begin", Kreitzmann said. "The Extreme Landscape Makeover will help me accomplish my dream."

McKay Nursery sent their landscape expert of 29 years, Gerald Bode to meet with Kreitzmann to design her plan. "I'm excited about Ms. Kreitzmann's good fortune," Bode said. "The best part about working with older homes is seeing the major change that takes place with the new design."

Kreitzmann and Bode agreed to focus on the front entry by adding bright colors to tie in with the beige siding and brick of her home. "I'm excited to see the results and am looking forward to having a beautiful home both inside and out", Kreitzmann said.

For her extreme makeover, Kreitzmann will receive a custom landscape design for her front and backyard including plant delivery and final installation of the plant materials. McKay representative Bode will complete the landscape project within the next three weeks. "Contrary to popular belief, you don't have to wait until spring to plant. Any time up until the first freeze is ok, and McKay Nursery guarantees all of our new plants", Bode said.

Anyone interested in winning an Extreme Landscape Makeover may still enter the contest by logging on to McKay Nursery's website at [www.mckaynursery.com](http://www.mckaynursery.com). The next winner will be chosen on or about April 1, 2008.

**Local Plymouth resident wins McKay Nursery  
Color-it-Green Sweepstakes**

Long term Plymouth resident, Janice Szulczewski has been chosen as the 2008 winner of the McKay Nursery Color-it-Green Extreme Landscape Makeover contest. Janice's entry was actually submitted by her daughter Sue Szulczewski, also of Plymouth, so the announcement of her good fortune was a complete and pleasant surprise. Sue entered her mother in hopes that a landscape makeover could be done in remembrance of a son and husband who had recently passed away. In her entry, Sue reflected on how her mother has been her inspiration and example on how to move forward after the devastating losses in their lives. Sue's wishes came true when her mother was selected as the winner.

Landscape makeovers for mature homes are a great way to increase the homes curb appeal or to create backyard escapes by replacing tired old plants with vibrant new plants along with new landscape features such as lawn art and rain gardens.

For her landscape makeover, Janice will receive a custom landscape design, \$1500 of quality McKay Nursery plants and professional installation. Local McKay representative Jim McCullough, of McCullough's Landscape in Maple Grove, will provide all necessary services to create a custom outdoor environment for Janice's enjoyment. A spring 2008 planting is expected.
